Rationale

Allergies, together with immunological disorders and asthmatic pathology, affect millions of people in Italy indiscriminately in both paediatric and adult age, using many medical and economic resources of our health system. Among the most common forms of allergies treated in Italy, at hospital, university and private institutes, there are: respiratory allergies (asthma and rhinitis), food allergies, skin allergies (atopic dermatitis, angioedema, urticaria), drug allergies, and reactions to hymenoptera venom. All these diseases can occur in mild and moderate forms, but sometimes also in severe forms such as systemic anaphylaxis and severe asthma, which can be life-threatening for those affected.

This year, the XXXVII National Congress of the SIAAIC will be enriched by a large international delegation, thanks to the collaboration with the World Allergy Organisation (WAO), allowing for an in-depth study and comparison between internationally renowned experts in allergic diseases, especially in their most complex aspects.

In addition to age and exposure, the environment is a significant risk factor for allergic and immunological diseases, influenced by climate change and pollution. The congress will address, in several sessions, the influence of climate change on the onset and severity of allergic and immunological diseases, both in the autoimmune and allergological fields.

The congress will pay special attention to rare diseases (vasculitis, EGPA, EES, immunodeficiencies, mastocytosis, angioedema) and autoimmune diseases, with a special focus on Systemic Lupus Erythematosus with daily sessions dedicated to improving knowledge in this broad area of the allergologist's and clinical immunologist's expertise.

In addition, another topic of great interest will be the study of allergic disease and symptom burden, which are crucial in the shared decision-making of diagnostic pathways and patient treatment. Various immunopathogenetic processes will be discussed as well as how the identification of cellular and molecular mechanisms can lead to precise phenotypic and endotypic diagnoses, useful for determining new therapeutic targets.

Finally, special attention will be paid to the innovations offered by artificial intelligence in medicine. The choice of new algorithms, the increasing use of biological drugs with monoclonal antibodies and specific immunotherapy will be the focus of discussion. These approaches represent fundamental treatments for allergic diseases and offer the possibility of disease remission, an ambitious goal for allergo-immunology specialists.

Topics

ALLERGOLOGY

- Anaphylaxis
- Angioedema
- Drugs allergy
- Food allergy
- Hymenoptera venom allergy
- Mastocytosis
- Molecular diagnostics

ARTIFICIAL INTELLIGENCE

ENVIRONMENT

- Aerobiology
- Allergy and sport
- Environment and climate change
- Epithelial barrier damage
- Microbiome
- Pollution
- Professional allergology

DERMATOLOGY

- Atopic dermatitis
- Contact dermatitis
- Urticaria

EOSINOPHILIAS

- Eosinophilic granulomatosis with polyangiitis (EGPA)
- Eosinophilic oesophagitis
- Gastrointestinal eosinophilias
- HES

CLINICAL IMMUNOLOGY

- Autoinflammatory diseases
- Clinical remission in allergy and clinical immunology
- Interstitial and autoimmune diseases
- Primary and secondary immunodeficiencies
- Rare diseases
- Rheumatoid and psoriatic arthritis
- Scleroderma
- Systemic Lupus
- Erythematosis
- Systemic sarcoidosis
- Sjogren's syndrome
- Vasculitis

IMMUNOTHERAPY

- Autoimmunity
- Allergen-specific immunotherapy
- Biological immunotherapies

- Maintenance of vaccine immunity in adulthood
- Management of vaccine reactions
- Monoclonal antibodies and small molecules

RESPIRATORY

- Bronchial asthma
- Chronic cough
- CRS and nasal polyposis and allergic rhinoconjunctivitis
- Rhinitis/Conjunctivitis

VACCINE PROPHYLAXIS

FURTHER TOPICS

- Diagnostic and Therapeutic Care Pathways (PDTA)
- Disease control and remission
- Doctor-patient communication
- Gender medicine
- Instrumental diagnostics in allergology and clinical immunology
- Laboratory medicine/biology
- Nursing
- Research in allergology (real life studies)

UPADACITINIB IS EFFICACIOUS IN REDUCING THE ALEXITHYMIC TRAIT IN ADULT PATIENTS WITH MODERATE-TO-SEVERE ATOPIC DERMATITIS: A PROSPECTIVE MULTICENTER REAL-LIFE STUDY

Presenter: Zinni Giulia

Co-Authors: Martina Ceraudo, Francesco Cinetto, Anna Palmieri, Alessandro Dell'Edera, Riccardo Scarpa, Chiara Briani, Marcello Rattazzi, Renzo Manara

Poster n° 251

CLINICAL IMMUNOLOGY

Poster Session 3

COMPLEX DIAGNOSIS, COMPLEX TREATMENT: A CASE OF MULTI-SYSTEMIC SARCOIDOSIS

Presenter: Zumbo Emanuela

Co-Authors: Francesca Dimasi, Stefania Isola, Paola Lucia Minciullo, Sebastiano Gangemi, Luisa Ricciardi

Poster n° 252

RESEARCH IN ALLERGOLOGY (REAL LIFE STUDIES)

Poster Session 3

LUNG FUNCTION CHANGES IN A SINGLE-CENTER COHORT OF PATIENTS WITH SEVERE ASTHMA TREATED WITH TEZEPELUMAB

Presenter: Zunno Roberta

Co-Authors: Luciana Pierro, Giovanni Florio, Ernestina Bosco, Pamela Merola, Ottavia Inglese, Erminia Giordano, Ada Giuliano, Vincenzo Patella

Poster n° 253

ALLERGOLOGY

Poster Session 3

ANAPHYLAXIS QUALITY OF LIFE SCALE FOR ADULTS: THE VALIDATION ON THE ITALIAN ALLERGIC PATIENTS

Presenter: Zurlo Marco

Co-Authors: Micol Del Giglio, Matteo Maule, Rachele Vaia, Gianenrico Senna, Marco Caminati

Poster n° 254

EOSINOPHILIAS

Poster Session 3

CASE REPORT: STEROID RESISTANT BULLOUS PEMPHIGOID AND HYPER-EOSINOPHILIC SYNDROME: NEW THERAPEUTIC APPROACHES AND THERAPEUTIC CHALLENGES

Presenter: Zurlo Marco

Co-Authors: Anna Russignan, Cristina Tecchio, Marco Caminati

Poster n° 255

EOSINOPHILIAS

Poster Session 3

EVALUATION OF NKT CELLS IN IHES SYNDROME

Presenter: Sciannamea Maddalena

Co-Authors: Derek Chu, Rocco Luigi Valluzzi, Heather Le, Maddalena Sciannamea, Lucia Lo Scalzo, Vincenzo Fierro, Lamia Dahdah, Arianna Cafarotti, Stefania Arasi, Giorgia Bracaglia, Veronica Calandrelli, Alessandro Giovanni Focchi

Poster Discussions

FRIDAY, 3rd OCTOBER 2025 - from 19.00 to 20.00

Poster Discussion 1

Poster Area 1/Exhibition Area - [Ground Floor](#)

SATURDAY, 4th OCTOBER 2025 - from 13.00 to 14.00

Poster Discussion 2

Poster Area 2/Foyer - [Floor -1](#)

SUNDAY, 5th OCTOBER 2025 - from 13.30 to 14.30

Poster Discussion 3

Poster Area 2/Foyer - [Floor -1](#)

The buffet lunch will be served in the
EXHIBITION AREA on the [ground floor](#)
and in the **FOYER** on [floor -1](#) at the following times:

- > **3rd October** from **12.30** to **13.30**
- > **4th October** from **13.00** to **14.00**
- > **5th October** from **13.30** to **14.30**

*Only those in possession of a conference
badge will be allowed to access to the buffet.*

The entire Congress programme
will be streamed live on the dedicated section
of the SIAAIC CHANNEL

www.siaaic-channel.it

The Congress is not CME accredited, but at the end of the residential event,
the conference contents, video-recorded in Milan, will be made available
through a CME-accredited asynchronous online course, delivered from
January 2026 for 12 months, on the IN&FO&MED platform.
